

**THE
ICE
HOUSE**

Back in the day (way back, long before any of us, well most of us, were breathing on this beautiful planet) there was no refrigeration. Our brilliant and resourceful forefathers (maybe some foremothers too) figured out how to build an “Ice House” to store their food and keep it wholesome.

The Ice House was traditionally filled with the finest and most valuable foods that they had. This is why the name Ice House was chosen. We strive to bring our customers the finest foods, local and definitely Canadian whenever possible. We prepare it with the same care and attention we have at home with our own family’s meals.
